### OTHER SERVICES

PUB has heavy equipment including diggers, excavators, backhoe and trucks that can be leased on an ad hoc basis when not required for PUB internal maintenance. PUB is not a plant hire business, and so such hires will be at management discretion. These prices range from \$350/day to \$950/day with operator

POI

#### POA.....Price on Application

POA reflects the differences in each service and each situation, so PUB will attend to a request for services and will advise of the price depending on the work, materials and equipment involved. Payments will then be required prior to work commencing

#### POI.....Price on Inquiry

POI reflects the differences in demand, time for hire, customer expectations, PUB operator availability etc.
